

# The Polished Plaster Company

The Polished Plaster Company has an enviable reputation for creating finishes with elegance, depth and interest, regardless of the brief.

From the walls of King Street's Louis Vuitton to those of Armani and Burberry, the WA-owned Polished Plaster Company supplies luxurious plaster finishes for a host of prestigious commercial, residential and other retail projects.

The highly reputable company is a distributor and authorised applicator of the full range of the UK brand, Armourcoat, which includes ArmourColour - a range of acrylic wall finishes designed for the professional decorator,

ArmourCast and Armourcoat Sculptural - a highly effective, three-dimensional solid plaster wall finish.

These products come with a wide range of colours, textures and styles for both internal and external projects. The products can be applied to most substrates including Gyproc plasterboard, sand cement renders, white set plaster and MDF.

The different kinds of polished plaster present an explosion of creative design

possibilities as well as a comfortable and more durable interior.

It is possible to view this exquisite range of products at the company's showroom, which is open by appointment only.

In addition to these finishes, The Polished Plaster Company's sister company Enviropaints offers OIKOS - a range of Italian solvent-free paints, with low certified VOC's and unlimited colour selection for all applications.

ARMOURCOAT SCULPTURAL® IS a range of seamless sculptural wall surface designs, suitable for an array of commercial projects.
